#### What is a Dental Referral Plan?

A dental care plan is a referral plan that has allowed our member patients to have their dental fees GREATLY REDUCED from established members of the dental profession. These participating dentists have agreed to pass on to the members the cost of savings from reduced insurance paper work, lower billing costs, smaller accounts receivable, less uncollectable debts, and discounts of volume referrals ... all for the member's benefit. Each member receives dental care in a convenient dental office by their own personal dentist, SELECTED BY THE MEMBER from a list of participating dentists. This type of service offers the economies of group health care ... plus the individual attention of private care. This is not a pre-payment plan or dental insurance.

#### Where Are Dental Services Obtained?

You will be mailed a list of the participating dental offices upon receipt of your application. The individual member may choose any available dental office participating in this program. The member may change dental facilities.

#### Who is Eligible?

You and ALL household members (if registered with the CCDP) are eligible for dental care under this plan. It is not necessary to belong to a group.

#### How do I Receive Care?

To receive care simply call the participating dental office you have selected for an appointment and tell the receptionist that you are a member of CCDP. You will receive treatment and service under the plan only at the participating dental office and must present your card prior to any treatment.

#### Appointment Availability

Most dental appointments will be during regular working hours. Some offices have evening and/or weekend hours available. Telephone the office you selected to verify the hours they are open and their specific policy for scheduling dental emergency service.

#### When Will Benefits Begin?

Benefits will begin as soon as you receive your membership card. Please allow two weeks for processing your application. Call our office for any emergencies.

#### Dental Fees

All payments listed under the members Benefits and Dental Fees in this brochure are made directly to the Dental Office. As treatment is performed, payments are made by the patient to the dentist at each appointment. You should discuss all future payments and costs before new appointments are made. Some fees may vary where unusual services and/or materials are required.

### PLAN LIMITATIONS AND EXCLUSIONS

1. Services for injuries or conditions that are covered under Workman's Compensation or Employer's Liability Laws. Services which are provided without cost to the member by any municipality, county or other political subdivision. Cost of dental care which is covered under automobile, medical, no fault, or similar type insurance.
2. Services which in the opinion of the attending dentist are not necessary for the patient's dental health or that cannot be performed because of the general health of the patient are excluded.
3. General anesthesia (put to sleep), I.V. sedation, Nitrous Oxide (twilight sleep), and hospitalization or hospital or medial charges of any kind and Osepointagrated Implants are excluded.
4. Member's dental fees apply only when treatment is performed at a participating dental office.

#### Emergencies

Routine dental emergencies, where the patient is seen during regular office hours, are a \$10.00 CHARGE to the member. Emergencies during non-office hours and weekends are charged to the patient at the dentists customary off-hour emergency rate.

#### Other Charges

The member is responsible for the payments for services listed in the Member's Dental Fees. Any procedure for general dentists not listed is available on a fee for service basis at a 25% discount. Consult with your participating dentist prior to beginning any treatment. Specialist are a 20% discount except orthodontists. See Dental Directory.

#### Payments To The Dentist

Because of the reduced fees for dental services, accounts must be settled at the time dental service is performed. Failure to do so could terminate your membership. Reduced fees are possible because you must pay the dentist as you receive treatment.

#### Cancelling Appointments

If you are unable to keep your scheduled appointment, you must notify your dental office at least 24 hours in advance. Failure to notify your dental office in advance of not keeping an appointment will result in a \$10.00 'broken appointment charge'. Broken appointments result in wasted time and increased costs. Please try to keep all appointments.

#### Continuous Enrollment?

YES, you may renew your subscription agreement indefinitely on an annual basis, at the sole discretion of CCDP. A renewal notice will be sent out a month before it is due. There are NO age limits! Renewal fees may vary from year to year and dental fees may be raised at the discretion of the plan. Please be aware of the potential changes each year.

#### What if I have Dental Insurance?

Dental insurance and coverages the member may have will be considered as primary and will pay as if CCPD did not exist. The member will not benefit by having two programs, unless CCDP is used to reduce fees for dental procedures not covered by the primary (other) program.

#### Grievance Procedure

Direct all grievances to the CCDP. Unresolved grievances will be settled by arbitration.

If the Services of a non-participating specialist or non-participating general dentist are required and these dental fees do not apply and the patient will be responsible to the non-participating dentist for his usual, customary, and reasonable fee.

5. Any dental treatment already in progress will not be included in the reduced fee schedule or if the patient's membership is no longer valid, then the reduced fee will not be honored.
6. Any member accepted for orthodontics must remain a member of the dental plan for the full duration of their treatment or risk additional charges from their participating orthodontist.
7. A patient's existing dental or medical condition may necessitate extra precautionary procedures and require additional charges. Please discuss all fees with the dentist prior to treatment.

### Good Health & Chiropractic

Taking care of your body should be one of the most important things you do in life. By taking care of yourself you can add many good years to your life. Your spine is part of the communication system in your body. You should pay attention to how you sit or stand if you have backaches and pains.

There is such an emphasis on spinal adjustment because of the spine's vital importance to our life and health. In addition to holding the body upright, the spine encloses the spinal cord. Nerve messages run down a large trunk of nerves in the spinal cord and branch out from between the vertebrae in smaller and smaller nerve lines to control every organ and every muscle.

The spine is very flexible and subjected to almost constant stress and strain, which may cause it to get out of alignment. When such misalignments (subluxations) occur, the spinal cord may be irritated or even pinched, resulting in pain and sometimes even "garbling" messages from the brain to the organs and muscles. Such malfunctions can cause illness. When the spinal adjustment is made and the vertebrae realigned, the nerves can function as intended and wellness can be restored.

Your doctor of Chiropractic can help you with this because he/she has had many years of special education to determine if there is a problem with alignment of your spine. A doctor of Chiropractic can determine if there is any interference to the nerve network and work diligently to restore the spinal column to its normal function.

Chiropractic has been successful in many cases where medical treatment has failed. The doctor of Chiropractic studies the whole human being, using x-rays, clinical laboratory examinations and specialized spine and nerve tests. A backache does not have to be a pain that won't go away. Your doctor of Chiropractic is a specialist in the diagnosis and treatment of spinal disorders.

Remember by having regular checkups you may catch a problem in the beginning when it is easier to correct.

### Limitations

If, in the opinion of the Chiropractic Provider there arises a situation which is not considered a "chiropractic case," then that situation can be referred to a medical physician or specialist, with no financial obligation borne by the Contracting Chiropractic Provider of Corpus Christi Chiropractic Plan.

Subscriber holds Corpus Christi Dental and Chiropractic Plan blameless for any negligence on the part of the participating chiropractor. This agreement can be terminated by the Corpus Christi Dental Plan without cause by returning membership fees to the member.

## Wayne Stejskal Homeopathic Practitioner

	Regular Price	Member Price
<b>Body Energetic Testing</b>	<b>\$200.00</b>	<b>\$150.00</b>

A Body-Scan technology so advanced that the body can be electronically tested for more than six thousand substances in less than 10 minutes. A painless and non-invasive way to design a personal program. This takes the guess work out of knowing what your body needs in products for such concerns as hormones, allergies, nutritional deficiencies and many other concerns. (Allow 3 hours)

<b>EAV Compatibility Test</b>	<b>\$100.00</b>	<b>\$75.00</b>
-------------------------------	-----------------	----------------

Classified as Bio-feedback. Don't take this word lightly. This is one powerful tool. In our office this testing is performed on the BodyScan 2010 Bio-feedback testing device. Ting points on hands and feet that follow meridians to organs assists the practitioner to design a program unique to you. (Allow 1 ½ hours)
